## **Mission Statement**

The mission of Model Upper Secondary School of Agioi Anargyroi is to nurture the comprehensive and balanced development of our students—intellectually, emotionally, physically, and ethically—so that every learner, regardless of gender or origin, grows into a free, responsible, and compassionate individual. Guided by the principles of democracy, respect for human dignity, and the Christian Orthodox tradition, our school inspires students to cultivate integrity, curiosity, and empathy while honoring their cultural identity and heritage. Through the International Baccalaureate framework, we empower learners to think critically and creatively, to value both intellectual and practical work, and to act with responsibility toward the environment and society. We strive to develop active global citizens who collaborate across cultures, uphold peace and justice, and contribute meaningfully to the progress of our nation and the betterment of the world.
